

Adopt-an-Animal Adoption Form

The Aspen Valley Wildlife Sanctuary exists to rehabilitate orphaned or injured wildlife. Over the last thirty-five years, literally thousands of creatures have been cared for and then released into carefully chosen and suitable locations.

Sometimes however, we are given creatures, which for various reasons, cannot be released. For them we try to provide a good life, and they become our family. Perhaps you may consider sponsoring a permanent resident of your choice. This help will cover the cost of feeding for one month. You can adopt an animal for yourself, give an adoption as a gift in celebration of a birthday, anniversary or Christmas. A picture and story of the animal along with a certificate of adoption will be issued to the recipient listed.
